

International Veterinary Students' Association

THE FUTURE OF VETERINARY CARE

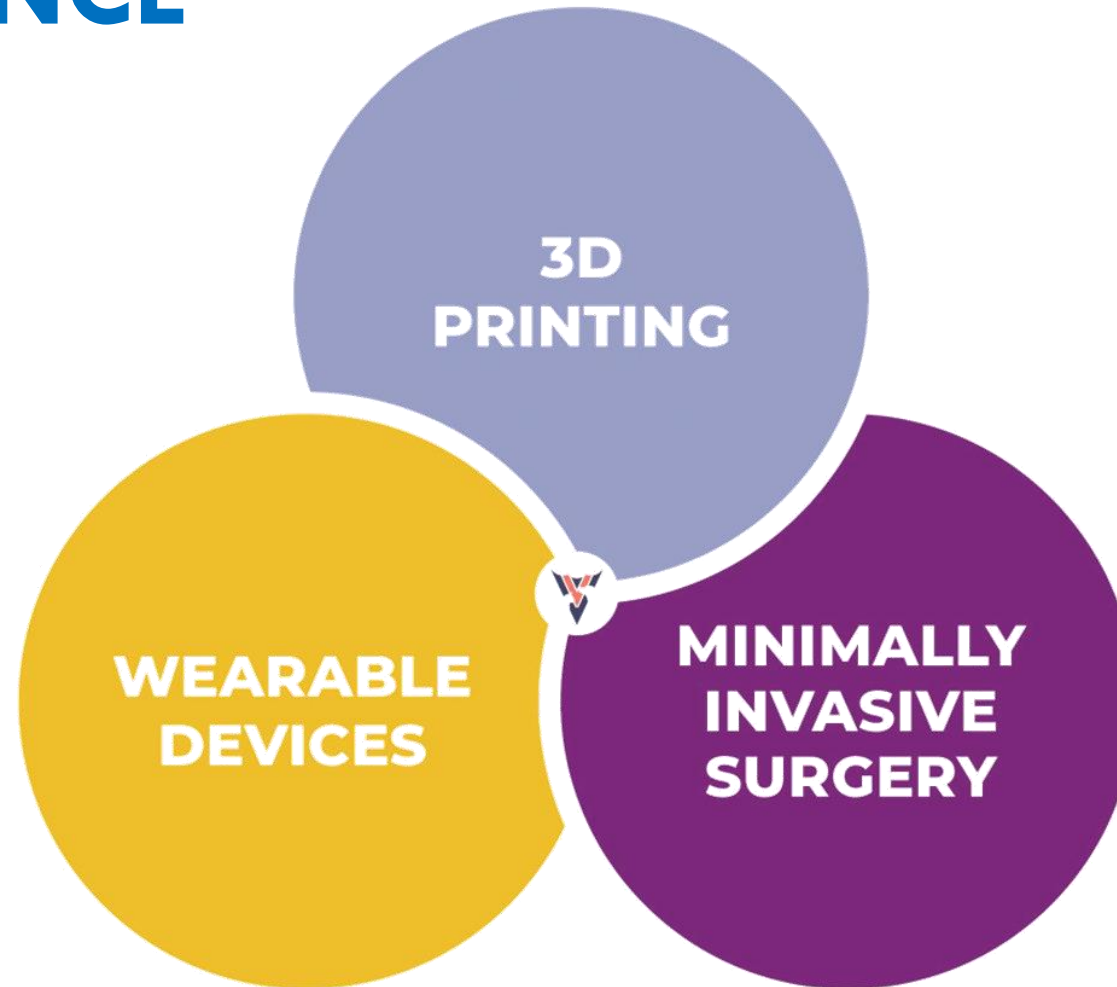

***HOW SUSTAINABILITY AND INNOVATION IS SHAPING THE NEXT
GENERATION OF VETERINARIANS' APPROACH TO ANIMAL CARE***

Merel Knoops, President of the International Veterinary Students' Association

CONTENT

1. Digital Technologies & Artificial Intelligence
2. Innovations of the future
3. Sustainability
4. Education
5. The impact on the future generation of veterinary medicine

DIGITAL TECHNOLOGY & ARTIFICIAL INTELLIGENCE

DIGITAL TECHNOLOGY & ARTIFICIAL INTELLIGENCE

- Veterinary computer programs

DIGITAL TECHNOLOGY & ARTIFICIAL INTELLIGENCE

- Telemedicine
- Dangerous or useful?

INNOVATIONS OF THE FUTURE

- Nutrition: “The perfect diet”
- Veterinary imaging centers
- Pet Gadgets

SUSTAINABILITY

“the ability to remain at a certain level”

- Gender equity
- Mental health
- Pet insurance

“avoidance of the depletion of natural resources”

- Reusable equipments
- Sustainability CPD
- “Green practice” accreditation

EDUCATION

- Curricular / Extra-Curricular?
- CPD
 - Vets
 - Teachers & Professors

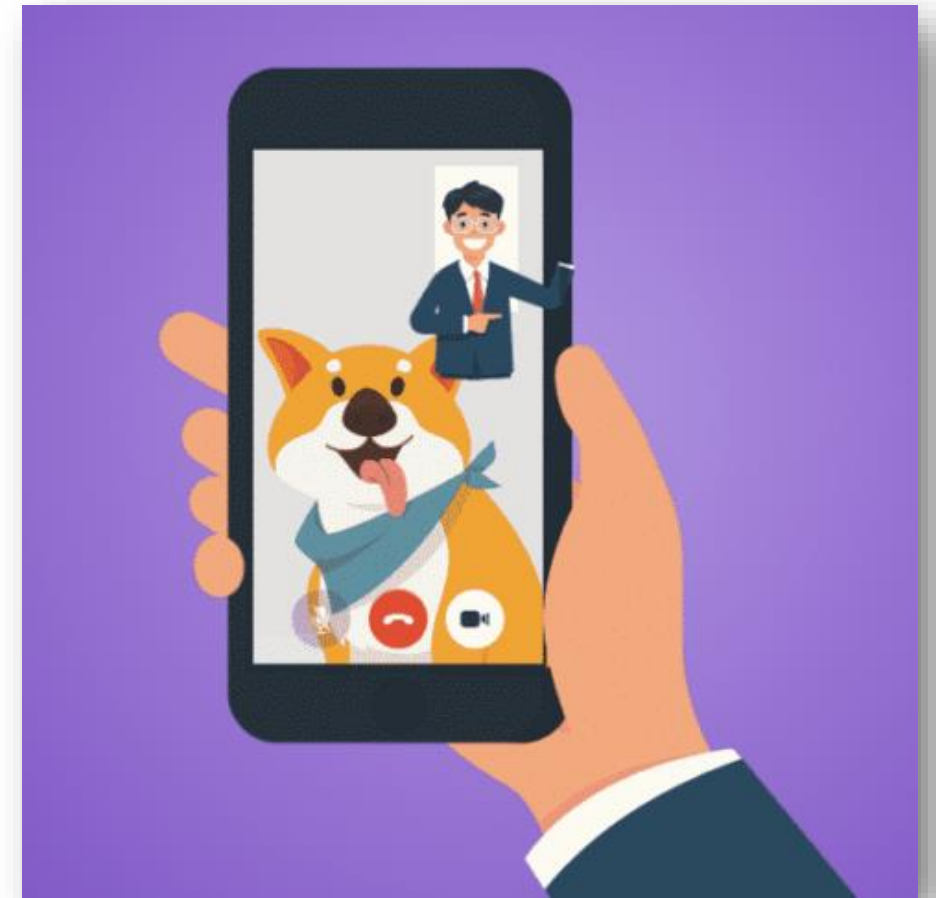

THE IMPACT ON THE FUTURE GENERATION OF VETERINARY CARE

“the future is unpredictable”

BUT...

Innovations will continue

- Price of veterinary services
- Equality in the veterinary practice
